【5】次の英文を読み、下記①～⑤の正誤を○×で答えなさい。

The biochemist, Professor Satoshi Omura received the Nobel Prize in medicine for his work on a therapy for debilitating diseases caused by parasitic worms in 2015. He is from Nirasaki-City in Yamanashi Prefecture. He is graduated from the University of Yamanashi. Then he received his Master's degree from the Tokyo University of Science. And also, he received his Doctor of Philosophy from the University of Tokyo, and the Tokyo University of Science. It is a great honor to have the Nobel Prize winner from Yamanashi Prefecture for us. The fact encourages us a lot.

In his high-school days, he was belonging to the ski club, and he was a good skier. He plays golf. One day, he was playing golf at the Kawana Hotel Golf Course, and he

attempted soil sampling there. From the soil, he found the microorganism that would connect to the avermectin.

He built the Nirasaki Omura Art Museum near at his house in 2007. He donated the museum and the collection to Nirasaki-City in 2008.

- ① 大村さんは山梨県出身である。
